Madison AI™

CLIENT
City of Corona, California

LOCATION: CORONA, CA | POPULATION: ~157,000 | GOV TYPE: FULL SERVICE CITY | STAFF SIZE: 860 EMPLOYEES

AI-POWERED INSTITUTIONAL KNOWLEDGE & PROCUREMENT

A City of 157K Saved $11K/Month in Staff Time Just Months into AI Deployment

The City of Corona deployed Madison AI across citywide governance and procurement, reaching 72 active users and 649 conversations in the first six months. An additional Community Development model is planned for 2026 based on early success.

Unique topics asked/answered

THE CHALLENGE

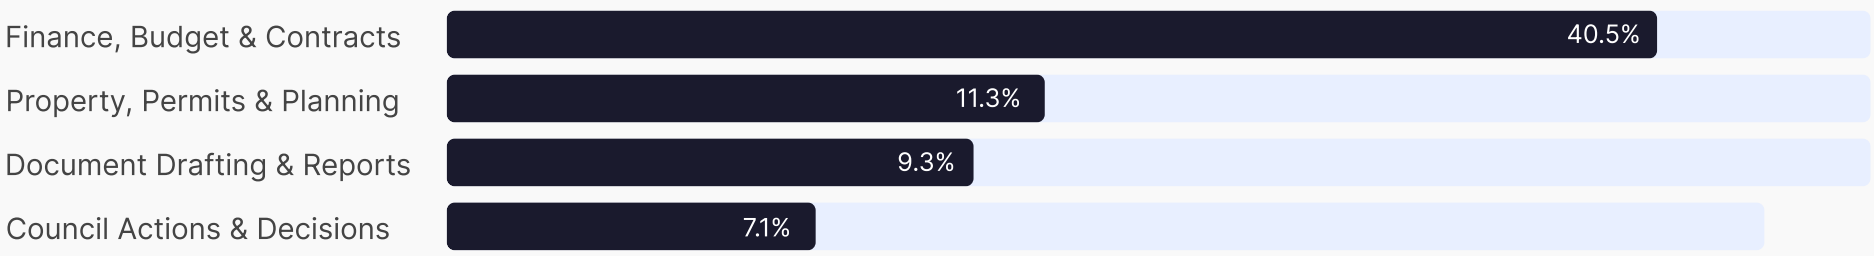

Corona's city staff spent significant time researching procurement standards, reviewing contracts, and navigating decades records spread across departments. With growing service demands and administrative complexity, staff needed faster access to institutional knowledge.

THE SOLUTION

Madison AI deployed custom AI models across citywide governance and procurement, including 30+ pre-built agents, a dedicated Procurement AI Assistant, and weekly auto-indexed data lakes. Staff now get instant answers on contracts, budgets, council decisions, and planning records.

> "We have every previous decision and action at our fingertips. It's so powerful, and it's been so helpful."
>
> -Assistant City Manager, City of Corona

WHAT EMPLOYEES SEARCH FOR MOST

Procurement & Contract Research
Staff search vendor agreements, purchase orders, and solicitation history in seconds instead of digging through files.

Council Action Lookup
Pulls past council votes, resolutions, and direction on any topic so staff arrives at meetings prepared.

Document Drafting
AI drafts scopes of work, staff reports, memos, and guidelines from internal data, cutting prep time significantly.

Planning & Development Research
Searches permits, zoning records, specific plans, and project history on demand for planning staff.
