STAFF QUERIES & ANSWERS

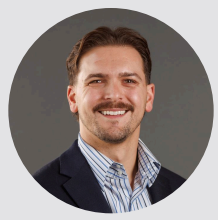

THE CHALLENGE

Los Altos Hills runs lean. With a small staff serving 8,500 residents, there's no room for wasted hours. But researching past Council actions, drafting staff reports, pulling up zoning codes, and summarizing meetings ate into the time the team needed for higher-value work.

THE SOLUTION

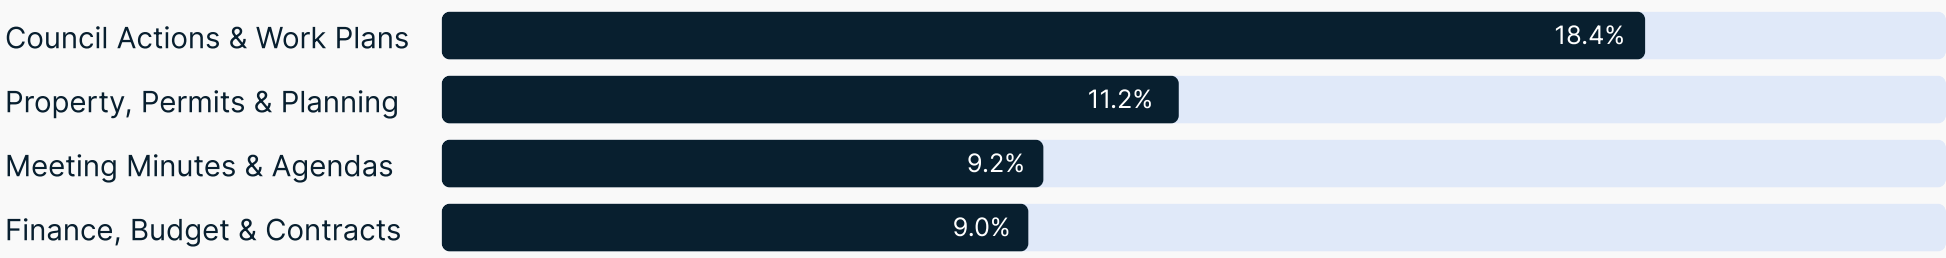

Madison AI handled the deployment end to end: data integration, 30+ custom agents, and hands-on training. A Citywide model went live in 2024, and a Community Development model followed in 2025 to cover zoning research, land-use analysis, and planning documents.

> "Like many public agencies, we're dealing with staff turnover while still trying to deliver on an ambitious City Council work plan. Tools like Madison AI help us retain institutional knowledge and quickly access past decision. In a small organization like ours, that kind of support can feel like adding an experienced team member to the staff."

Cody Einfalt
Acting City Manager
Los Altos Hills, CA

WHAT STAFF SEARCH FOR MOST

Council Research & Staff Reports
Pulls past Council actions, resolutions, and work plan items so staff can draft reports in minutes instead of hours.

Zoning & Land-Use Analysis
Planning staff look up parcel history, zoning codes, and land-use rules without digging through binders or legacy files.

Meeting Prep & Summaries
Summarizes past meeting minutes, agenda items, and action items so staff shows up prepared.

Municipal Code Lookup
Instant answers on Town ordinances, code requirements, and regulatory questions for staff and the public counter.
