INSTITUTIONAL KNOWLEDGE AI

From Static Files to 2.5 Hours Saved Per Search. A California Water District's AI Story.

$107,500	294	1,075 hrs	85 staff reports
SAVED IN STAFF TIME	DAILY INTERACTIONS	STAFF HOURS SAVED	DRAFTED LAST YEAR

THE CHALLENGE

Like many public agencies, LVMWD's institutional knowledge was trapped in siloed documents, legacy systems, and the heads of long-tenured staff. Finding answers to operational, financial, or governance questions meant hours of digging. Or hoping the right person was available.

THE SOLUTION

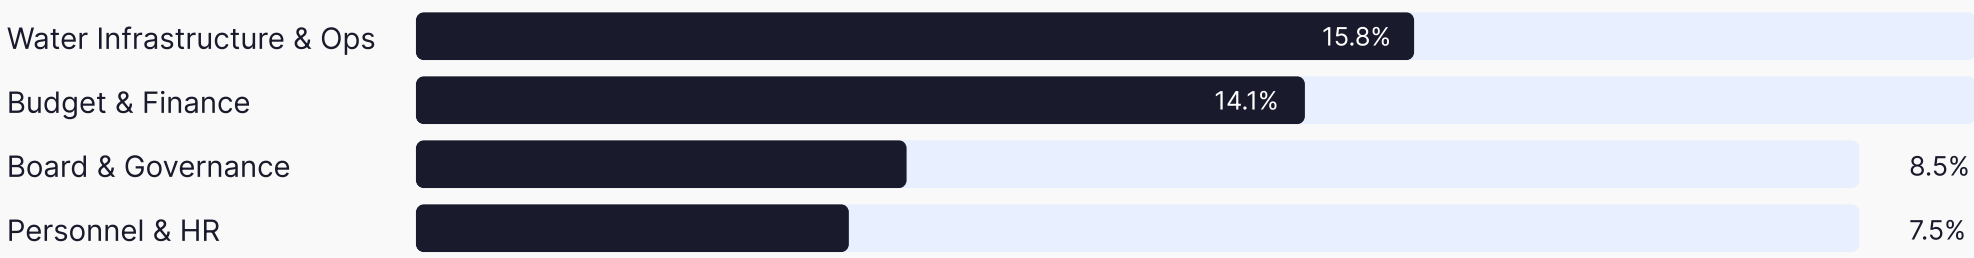

Madison AI deployed an AI-powered knowledge assistant trained on LVMWD's internal documents. Staff now get instant answers on water infrastructure, budgets, board decisions, and HR policies, saving an estimated 2.5 hours per day for knowledge workers.

> "Madison AI produced 3-4x more than what we expected it could. It's allowed us to dream more. Everytime someone uses it, it saves 2.5 hours of time."

Ivo Nkwenji
Information Systems Manager

WHAT EMPLOYEES SEARCH FOR MOST

Staff Report Drafting
AI drafts board-ready staff reports from internal data, cutting prep time from 4+ hours to under 30 minutes.

Policy & Procedure Lookup
Employees search HR policies, safety protocols, and admin procedures in seconds instead of digging through shared drives.

Board Meeting Prep
Summarizes past board actions, resolutions, and MWD meeting notes so staff arrives prepared, not scrambling.

Budget & CIP Research
Pulls historical budget data, capital improvement details, and rate structures on demand for finance teams.
