AI-POWERED KNOWLEDGE MANAGEMENT

“We Got Our Money’s Worth From One Search” — Then WRCOG Completed 870 More Tasks with their AI in 2025.

42 % STAFF ADOPTION	870 QUERIES PER YEAR	316 RESEARCH CONVERSATIONS	\$107k AVOIDED ADMIN COST IN THE LAST 12 MONTHS

THE CHALLENGE

WRCOG coordinates regional services for 18 cities with just 36 staff, managing 94 active contracts and 50+ committee meetings per year. Finding a past resolution, tracking down a governance authority, or preparing a staff report meant hours of manual searching through 35 years of records — or hoping the right person remembered.

THE SOLUTION

Madison AI deployed a knowledge assistant trained on WRCOG's governance documents, plus a purpose-built staff report writer calibrated to their formatting rules. Staff now get cited answers on resolutions, budgets, and policies in seconds, and the report module handles boilerplate sections automatically.

“We have found a number of instances where using Madison we were able to get an answer right away. And then sometimes the answer was something we didn't know.”

Chris Gray
Deputy Executive Director
WRCOG

WHAT STAFF SEARCH FOR MOST

Staff Report Drafting

AI drafts committee-ready staff reports with standardized summaries, prior actions, and financial sections — cutting prep time for 50+ annual meetings.

Resolution & Bylaws Lookup

Surfaces 35 years of governance documents in seconds. Found a forgotten signing-authority resolution that saved outside counsel hours of billable research.

Contract & Vendor Management

94 active contracts searchable on demand — upcoming: full contract library loaded for expiration tracking and amendment history.

Regional Program Research

Instant answers on TUMF, transportation projects, energy programs, and habitat conservation across WRCOG's 18-city service area.
